BADFINGER: "For Love Or Money" – "Badfinger"

Unknown

Badfinger's first few albums were rather enjoyable, but it seems lately they've run into a crisis. They want to break away from the Beatles-copyists label, but they don't know where to run. Sometimes they sound like the Badfinger of old and sometimes they sound altogether Americanized. They should listen to their old records, figure out what they had then, and try to improve upon it, rather than running off like a chicken without a head.
